Delivering Comprehensive Assistance in Commercial and Residential Real Estate Matters

The Real Estate Group at Dickie, McCamey & Chilcote, P.C. is committed to offering comprehensive, proactive and efficient real estate counsel to its clients in both commercial and residential matters. Our real estate litigation services include representation in matters related to title insurance; eminent domain; oil, gas and mineral title opinions; real estate assessment appeals; and general real estate tax matters. In line with this commitment, Dickie McCamey has created a wholly-owned title insurance company – Emissary Settlements, LLC – to facilitate in-house coordination and servicing of our clients' real estate needs. This company offers unique and inclusive real estate services utilizing the experienced real estate team of lawyers and staff at our firm.

Advising Clients Involved in Complicated Real Estate Transactions

Real estate matters can be among the most complex of all business transactions, given the contract disputes, environmental, zoning and financial issues involved. The members of our Real Estate Group concentrate in financing, development, contract negotiation and documentation, closing, and litigation.

The successful resolution of real estate issues and disputes often demands a multidisciplinary approach. At Dickie McCamey, our attorneys collaborate with colleagues practicing throughout our firm to help devise workable solutions for complex real estate matters.
